

# BTEC SCIENCE

## Achieving Excellence Together

AQA Level 3 Extended Certificate in Applied Science

Entry Requirements: Five Grade 'C's, or above, at GCSE Level.

## Course Description

This is an academic course that will teach theory from biology, chemistry and physics up to A level-equivalent. There are 6 units of work. Unit 1 includes the taught concepts from biology, Chemistry and physics and unit 2 is a unit of practical activities to compliment these concepts. Unit 3 examines how science is used in the modern world. Unit 4 focuses on the human body. Unit 5 is a unit focused on researching science. Unit 6 includes microbiology and medicine science.

### Method(s) of Assessment

Units 1, 3 & 4 are examined by an external written exam (unit 3 includes pre-release material that student will have access to before the exam)

Units 1, 5 and 6 are internally assessed through portfolios of work

## Progression

Supports any entry into the healthcare profession, or biology-related course.
