Dear Parents/Carers,

**RE: School E-mail Address Permission**

As the organiser of the Computer Science Club which your child regularly attends, I would like to let you know about the next phase of the club and what it entails. Students will be given a project of their choosing to complete over the next few months and I am able to offer the students some free resources to support them in doing this. The students will require an e-mail address which can be set up and provided by Thomas Alleyne Academy but I would require parental permission to do so.

There are a range of benefits your child would have through this including a free download of the latest Microsoft Office software to be used at home.

Within the club, students will use their e-mail addresses to access to the following:

- Development of their own websites ([thimble.mozilla.org](http://thimble.mozilla.org)),
- Video game design and programming development ([codemonkey.com](http://codemonkey.com) and [codingclub.org](http://codingclub.org)),
- Mobile applications ([www.appshed.com](http://www.appshed.com)),
- Cyber security at [learning.thetechpartnership.com](http://learning.thetechpartnership.com)

Please complete the attached reply slip by Friday 17<sup>th</sup> November and return to Mr Weier in C5 or to the Main Reception.

Yours faithfully,

Mr L Weier

Teacher of Computer Science
