

Maths

In the first half term we learn about numbers, algebra, geometry and measures. Each half term we learn something different and we use "MyMaths" quite a lot to do our homework. [Back to top](#)

English

During the first half term we learn about biographies and telling tales, which is known as narrative writing. We also have a library lesson each week and can borrow books from the library. We should always have a reading book in our school bag. [Back to top](#)

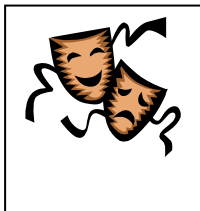

Science

During the first half term we have an introduction to science and then we look at cells, reproduction, microbes and body systems. [Back to top](#)

Geography

The first thing we do in geography is to learn about Stevenage and our area; we get to do a research project too. [Back to top](#)

Drama

We have a drama studio where we have drama lessons once a week. There is also a drama club and all students have an opportunity to audition for the Christmas Production and any other performance shows that the school does. [Back to top](#)

ICT

The first things we learn in ICT are how to organise our folders, E-Safety, safe use of email and the internet. We have lots of ICT suites at the school which can be used for other subjects as well. There is an ICT club too, every lunchtime except for Friday. [Back to top](#)

History

The first thing we learn is "what is history" which is an introduction to practical historical skills. During the second half term we learn about the Norman Conquest in 1066. [Back to top](#)

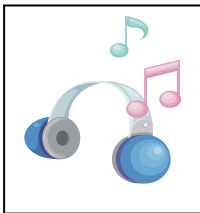

French

In French we continue to develop what we have learnt during primary school. One of our French teachers comes from France. [Back to top](#)

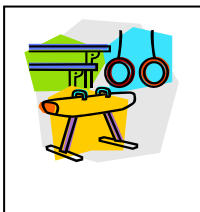

RE (Religious Education)

In the first time we look at who we are and how we fit into a community and we look at Sikhism and other different cultures and religions. [Back to top](#)

Music

In music we get to play lots of different musical instruments including keyboards. If you already play an instrument you can continue having lessons at the school, but you have to pay for them. [Back to top](#)

PE

We have both a Gym and Sports hall at the school and do different activities in each. We have a big sports field and also a rugby and football pitch. There are lots of PE clubs and activities during school time and after school. [Back to top](#)

Design Technology

We do a rotation of activities in Design Technology with a few weeks of Art, Textiles, Food Technology and Resistant Materials. We get to make lots of things in resistant materials and cook too when we do food technology. [Back to top](#)
