

THE THOMAS ALLEYNE ACADEMY FIRST AID POLICY

--

Document produced by:	Michelle Hope - Lead First Aider
Date Adopted:	November 2023
Review date:	November 2025

0

Statement of intent

The Thomas Alleyne's Academy is committed to providing emergency first aid provision in order to deal with accidents and incidents affecting staff, pupils and visitors. The arrangements within this policy are based on the results of a suitable and sufficient risk assessment carried out by the school in regard to all staff, pupils and visitors.

The school will take every reasonable precaution to ensure the safety and wellbeing of all staff, pupils and visitors.

This policy aims to:

- Ensure that the school has adequate, safe and effective first aid provision for every pupil, member of staff and visitor to be well looked after in the event of any illness, accident or injury,

no matter how major or minor.

- Ensure that staff and pupils are aware of the procedures in the event of any illness, accident or injury.
- Ensure that medicines are only administered at the school when permission has been granted for this.
- Ensure that all medicines are appropriately stored.

Nothing in this policy will affect the ability of any person to contact the emergency services in the event of a medical emergency. For the avoidance of doubt, staff should dial 999 in the event of a medical emergency before implementing the terms of this policy and make clear arrangements for liaison with ambulance services on the school site.

1. Legal framework

This policy has due regard to legislation and statutory guidance, including, but not limited to, the following:

- Health and Safety at Work etc. Act 1974
- The Health and Safety (First Aid) Regulations 1981
- The Road Vehicles (Construction and Use) Regulations 1986
- The Management of Health and Safety at Work Regulations 1999
- The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) 2013
- DfE (2017) 'Supporting pupils at school with medical conditions'
- DfE (2022) 'First aid in schools, early years and further education'
- DfE (2023) 'Statutory framework for the early years foundation stage' DfE (2023) 'automated external defibrillators (AEDs): a guide for maintained schools and academies'

2. Roles and responsibilities

The Head of First Aid is responsible for:

- The overarching development and implementation of this policy and all corresponding procedures.
- Ensuring that the relevant risk assessments, and assessments of the first aid needs of the school specifically, have been conducted.
- Ensuring that there is a sufficient number of appointed first aiders within the school based upon these assessments.
- Ensuring that there are procedures and arrangements in place for first aid during off-site or out-of-hours activities, e.g. educational visits or parents' evenings.
- Ensuring that appropriate and sufficient first aid training is provided for staff, and ensuring that processes are in place to validate that staff who have undertaken training have sufficient understanding, confidence and expertise in carrying out first aid duties.
- Ensuring that adequate equipment and facilities are provided for the school site.
- Ensuring that first aid provision for staff does not fall below the required standard and that provision for pupils and others complies with the relevant legislation and guidance.
- Ensuring that an 'appointed person' is selected from amongst staff to take the lead in first aid arrangements and procedures for the school.

The head teacher is responsible for:

- The development and implementation of this policy and its related procedures.
- Ensuring that all staff and parents are made aware of the school's policy and arrangements regarding first aid.
- Ensuring that all staff are aware of the locations of first aid equipment and how it can be accessed, particularly in the case of an emergency.

Page 2

- Ensuring that all pupils and staff are aware of the identities of the school first aiders and how to contact them if necessary.

Staff are responsible for:

- Ensuring that they have sufficient awareness of this policy and the outlined procedures, including making sure that they know who to contact in the event of any illness, accident or injury.
- Reading and acting upon medical update emails from the Lead First Aider
- Securing the welfare of the pupils at school.
- Making pupils aware of the procedures to follow in the event of illness, accident or injury.

First aid staff are responsible for:

- Completing and renewing training as dictated by the governing board.
- Ensuring that they are comfortable and confident in administering first aid.
- Ensuring that they are fully aware of the content of this policy and any procedures for administering first aid, including emergency procedures.

- Keeping up to date with government guidance relating to first aid in schools.

The appointed person is responsible for:

- Overseeing the school's first-aid arrangements.
- Taking charge when someone is injured or becomes ill.
- Looking after the first-aid equipment, e.g. restocking the first aid container. ● Ensuring that an ambulance or other professional medical help is summoned when appropriate.
- Calling the emergency services where necessary.
- Maintaining injury and illness records as required.
- Partaking in an appointed persons course, emergency first aid training, first aid at work, and refresher training where appropriate, to ensure they have knowledge of: –
 - What to do in an emergency.
 - How to assess and monitor a casualty.
 - First aid for the unconscious casualty.
 - First aid for someone who is having a seizure.
 - Maintaining injury and illness records as required.

3. First aid provision

Our first aid team will be able to administer medication to students provided we have received Parents/Carers consent on the Arbor app/portal. The medications available will be paracetamol (caplets), paracetamol (liquid), antihistamine allergy relief (tablets) and asthma inhalers. The first aid team will be able to administer medication the moment your child arrives in first aid and help them get back to their lessons. If we do not have Parents/Carers permission on Arbor, no medication will be given and Parents/Carers will need to bring in medication to the school as usual.

The school will routinely re-evaluate its first aid arrangements annually, to ensure that these arrangements continue to be appropriate for hazards and risks on the school premises, the size of the school, the needs of any vulnerable individual's onsite, and the nature and distribution of pupils and staff throughout the school.

The school will have suitably stocked first aid boxes in line with the assessment of needs. Where there is no special risk identified in the assessment of needs, the school will maintain the following minimum provision of first aid items:

- Individually wrapped sterile adhesive dressings, of assorted sizes
- Sterile eye pads and eye wash
- Individually wrapped triangular bandages, preferably sterile
- Safety pins
- Medium-sized individually wrapped sterile wound dressings
- Large-sized individually wrapped sterile wound dressings
- Disposable gloves
- Ice packs and heat packs

Page 3

All first aid containers will be identified by a white cross on a green background.

The appointed person will routinely examine the contents of first aid boxes, including any mobile first aid boxes for offsite use – these will be frequently checked and restocked as

soon as possible after use. Items will be safely discarded after the expiry date has passed.

First aid boxes are in the following areas:

- **The school office**
- **Staff room**
- **Sports hall**
- **Science block**
- **Minibus**

4. First aiders and appointed persons

The main duties of first aiders will be to administer immediate first aid to pupils, staff or visitors, and to ensure that an ambulance or other professional medical help is called when necessary.

The school will ensure that all first aiders hold a valid certificate of competence, issued by a HSE-approved organization, and that refresher training and retesting of competence is arranged for first aiders within the school before certificates expire.

The school will be mindful that many standard first aid at work training courses do not include resuscitation procedures for children, and will consequently ensure that appropriate training is secured for first-aid personnel where this has not already been obtained.

First aiders will ensure that their first aid certificates are kept up-to-date through liaison with the Head of first aid.

First aid notices will be clearly displayed throughout the school with information on the names and locations of first aiders to ensure that pupils and staff know who they must contact in the event of illness or injury.

The school will ensure that there is always a sufficient number of first-aid personnel available on site at all times to provide adequate cover to all areas of the school.

Page 4

In line with government guidance, and taking into account staff to child ratios, the school will ensure that there are at least **two** members of staff with a current First Aid certificate on the premises and available at all times when pupils are present, and accompanying pupils on any and all outings taken.

All staff members will be made aware that agreeing to become a first aider for the school is strictly on a voluntary basis and that they should never feel pressured to take on this role.

When selecting first aiders, the school will follow the criteria laid out in government guidance, considering the individual's:

- Reliability and communication skills.
- Ability to cope with stressful and physically demanding emergency situations.
- Availability to respond immediately to an emergency.

The school will ensure that first aid training courses cover mental health in order to help them

recognise the warning signs of mental ill health and to help them develop the skills required to approach and support someone, while keeping themselves safe.

Automated external defibrillators (AEDs)

The school has procured an AED through the NHS Supply Chain, which is located in the pastoral office. We also have another defibrillator in the staff room.

Where the use of the AED is required, individuals will follow the step-by-step instructions displayed on the device. A general awareness briefing session, to promote the use of AEDs, will be provided to staff on an annual basis, and usually during the first INSET session of the academic year.

5. Accommodation

The school's first aid room will be suitable to use as and when it is needed, and any additional medical accommodation will be available in accordance with the schools first aid needs assessment.

The first aid room will be used to enable the medical examination and treatment of pupils and for the short-term care of sick or injured pupils. The first aid room includes a wash basin and is situated near a toilet.

The first aid room will:

- Be large enough to hold an examination.
- Have washable surfaces and adequate heating, ventilation and lighting.
- Be kept clean, tidy, accessible and available for use at all times when employees are at work.
- Have a sink with hot and cold running water.
- Be positioned as near as possible to a point of access for transport to hospital. Page 5

6. Emergency procedures

If an incident, illness or injury occurs, the member of staff in charge will assess the situation and decide on the appropriate course of action, which may involve calling for an ambulance immediately or calling for a first aider.

If called, a first aider will assess the situation and take charge of first aider administration. If the first aider does not consider that they can adequately deal with the presenting condition by the administration of first aid, then they will arrange for the injured person to access appropriate medical treatment without delay.

Where an initial assessment by the first aider indicates a moderate to serious injury has been sustained, or the individual has become seriously unwell, a responding staff member will call 999 immediately.

Where necessary, a trained staff member will administer emergency help and first aid to all injured persons. The purpose of this is to keep the victim alive and, if possible, comfortable, before professional medical help arrives. In some situations, immediate action can prevent the accident from becoming increasingly serious, or from involving more victims. Where the

seriously injured or unwell individual is a pupil, the following process will be followed:

- A responding staff member calls 999 immediately and follows the instructions of the operator – this may include the administering of emergency first aid.
- Where an ambulance is required, a staff member accompanies the pupil in the ambulance and calls the pupil's parent as soon as possible to inform them of the course of action taken. The staff member remains with the pupil at the hospital until a parent arrives.
- The school will ensure that no further injury can result from any incidents that occur, either by making the scene of the incident safe, or, if they are fit to be moved, by removing injured persons from the scene.
- Responding staff members will see to any pupils who may have witnessed the incident or its aftermath and who may be worried or traumatized, despite not being directly involved. These pupils will be escorted from the scene of the incident and comforted. Younger or more vulnerable pupils may need parental support to be called immediately.

Once the above action has been taken, details of the incident will be reported promptly to:

- The head teacher.
- The parents of the victim(s).

Responding to an incident can be stressful for the first aider. Following the incident, the first aider may require support such as a debrief from any ambulance crew on scene, an appointment with their GP, or mental health support from external helplines and websites located at the bottom of the government page '[Promoting and supporting mental health and wellbeing in schools and colleges](#)'.

Page 6

7. Reporting accidents and record keeping

In the event of an incident or injury to a pupil, a parent will be informed as soon as it is possible. In the event of a serious injury or an incident requiring emergency medical treatment, the Head of first aid will telephone the pupil's parent as soon as possible.

A list of emergency contacts will be kept on the school MIS.

The Head of first aid will ensure that records are kept of any injuries, accidents or illnesses, as well as any first aid treatment that is given – this will include:

- The date, time and place of the incident.
- The name and class of the injured or ill person.
- Details of the injury or illness and what first aid was given.
- Details of what happened to the person immediately afterwards, e.g. whether they were sent home or went back to class.

The head teacher will ensure that any injury or accident that must be reported to the HSE or LA under RIDDOR obligations is reported in a timely and detailed manner.

8. Offsite visits and events

Before undertaking any off-site visits or events, the teacher organizing the trip or event will assess the level of first aid provision required by undertaking a suitable and sufficient risk assessment of the visit or event and the persons involved.

The school will take a first aid kit on all off site visits which contains at a minimum:

- Individually wrapped sterile adhesive dressings.
- Large sterile dressing.
- Triangular bandages individually wrapped and preferably sterile.
- Safety pins.
- Individually wrapped moist cleansing wipes.
- Pairs of disposable gloves.

Additionally, the school will ensure that all large vehicles and minibusses have a first aid box readily available and in good condition which contains:

- Antiseptic wipes, foil packed.
- Conforming disposable bandage that is not less than 7.5cm wide.
- Triangular bandages.
- Packet of 24 assorted adhesive dressings.
- Sterile eye pads, with attachments.
- Safety pins.
- 1 pair of non-rusted blunt-ended scissors.

Page 7

9. Storage of medication

Medicines will be stored securely and appropriately in accordance with individual product instructions. Medicines will be stored in the original container in the first aid cupboard located in reception.

Medicine will not be provided or administered without parent consent. Medicine brought in by pupils will be returned to them for safe disposal when they are no longer required or have expired.

Parents will advise the school when a child has a chronic medical condition or severe allergy so that an IHP can be implemented and staff can be trained to deal with any emergency in an appropriate way. Examples of this include epilepsy, diabetes and anaphylaxis.

Pupils will have any medication stored and, where appropriate administered, in accordance with their EHC plans and the school's Administering Medication Policy.

10. Illnesses and allergies

When a pupil becomes ill during the school day, they will be assessed by the member of first

aid at that time. The decision to be sent home relies on the judgment of the first aider on duty, and in some circumstances, with the input of the Lead First Aider. The Attendance Team must be consulted prior to sending a student home.

Parents may be contacted and asked to pick their child up or bring in medication, if we do not already have consent, as an alternative to their child being sent home e.g. painkillers or medicine to control allergies.

In some exceptional circumstances, a child may be allowed to walk home. This will always be with the express permission of a parent and a senior member of staff.

The school will manage any emergencies relating to illnesses and allergies in accordance with the [Emergency procedures](#) section of this policy.

11. Consent

Parents will be asked to complete and sign a medical consent form when their child is admitted to the school, which includes emergency numbers, alongside details of allergies and chronic conditions – these forms will be updated at the start of each school year.

Staff will always aim to act and respond to accidents and illnesses based on what is reasonable under the circumstances and will always act in good faith while having the best interests of the pupil in mind.

12. Monitoring and review

This policy will be reviewed every two years by the Head of first aid and approved by the governing body. Any changes will be communicated to all members of staff.

Staff will be required to familiarize themselves with this policy as part of their induction programme. Staff will be informed of the arrangements that have been made in connection with the provision of first aid, including the location of equipment, facilities and personnel.

Page 8

The policy is implemented in conjunction with the following school policies:

- Health and Safety Policy
- Supporting Pupils with Medical Conditions Policy
- Behavior Policy
- Child Protection Policy
- Educational Visits and School Trips Policy
